Game Rules

Speed Ball:

- Each player starts with a full drink and an upside-down can placed on the corner of the table. Teammates sit next to each other
- Teams take turns throwing the ball at the opposing team's cans.
- The first time a teammate hits an opponent's can, **their teammate flip their can right-side up** — this means they're now “active” and allowed to drink during future hits.
- After you're active, if your teammate hits a can again, you **start drinking your drink** while the opposing team scrambles to get the ball back and place it on the table. Once the ball is back on the table, you must **stop drinking**.
- Play continues until one team finishes both of their drinks — that team wins the round.
- If one of your team's cans gets knocked off or finishes, move it to the center of the table. From then on, **only the teammate who is not drinking throws the ball**.
- If the can falls completely off the table it must be replaced with a full can.

Beer Pong Rules

- This is the classic game with **10 cups in a triangle** formation on each side.
- Teams take turns shooting **two balls per turn** at the opposing team's cups.

Gameplay Rules:

- If a ball lands in a cup, **leave the cup in** for a chance at a “same cup” shot.
- If **both teammates make different cups** in one turn, those two cups are removed and the team gets the balls back.
- If **both teammates make the same cup**, they get the balls back and **the defending team must remove two extra cups of their choice** (total of 3 cups removed).
- **No travelers** (taking cups out for the ball traveling across cups)

Reracks:

- Each team gets **one rerack** per game. Options include:
 - 6-pack
 - Zipper
 - Diamond
 - Stoplight
- Once a team is down to **2 cups**, everyone gets an automatic **gentlemen's rerack**.

Endgame:

- If the opposing team sinks your final cup, your team gets a **redemption turn** to try and keep the game alive.
- If the game goes to **overtime**, check in with **Hayden or Jack** for the overtime rules.

Flip Cup: Shot Grid Edition

- A **5x5 grid** is taped onto the table. Each player has a solo cup.

- A **shot glass starts in the center** of the grid. Teammates stand side by side, across from opponents.

How to Play:

- Everyone starts flipping their solo cup at the same time.
- **When you successfully flip your cup**, move the shot glass **one square away from you** — pushing it closer to the opponent.
- The goal is to push the shot off the **opposing team's endline**.
- If the shot glass crosses your endline, **you must take the shot**, and your team **loses that round**.
- **IF THE SAME TEAMATE LOSES BOTH ROUNDS THEY DO NOT HAVE TO TAKE BOTH SHOTS**

Match Format:

- Games are played **best 2 out of 3 rounds**.
 - After each round, **switch who you're facing across the table**.
-

Darts Rules

- Each team gets 6 darts total — 3 per teammate.
- All players throw, and the team with the highest combined score wins the round.

Tiebreaker:

- If there's a tie, each player gets 1 dart, and the team with the highest combined score from those throws wins.
-

NO FOUL PLAY AND EVERYONE MUST HAVE FUN!
